

Madrid Fusión is held every year and it's a very important event which brings together the world's best chefs. This summit of haute-cuisine gastronomy turns Madrid into the world's culinary capital.

At this event, Michelin-starred chefs present their most cutting-edge techniques through juicy recipes. Famous chefs such as Ferrán Adriá, Jamie Oliver, Carme Ruscadella, Joan Roca, Martín Berasategui, María Marte, René Redzepi.....among many others participate every year.

In short, Madrid Fusión gives people the opportunity to taste these mouth-watering dishes. This same idea will be used for its recreation: VERIN FUSION. For this challenge we will need your collaboration through the following activities:

1st part:

Activity: Offering of a cooking recipe

You will have to offer a Spanish or Galician recipe to a foreigner so that he/she gets to know our gastronomy. You have to present that recipe, which must be clearly written, in such a way that whoever reads it, yearns for it. Include a picture.

Of course, the cooking recipe has to be written in ENGLISH. Beware! You have to think of a recipe that you'll cook at home, and you must bring it for the tasting event at our school (it can be a cold or hot dish, as at school we have the resources to give your recipe its final touch).

2nd part:

Creation of a DIVERSE COOKING RECIPE BOOK in which all the recipes will be contained: students' and teachers' character recipes and the ones which each student will cook at home. It will be an original cooking recipe book and a great memory for us and our foreign guests.

3rd part: final product

VERÍN-FUSION: recipe tasting. The recipes that students and teachers present will be made for a recipe tasting which will be held in December. We want our foreign guests to be surprised by our wonderful gastronomy.
